

POSITION DESCRIPTION

Position Title: Assistant/Associate Professor in Poultry Processing and Product Chemistry

Department: Poultry Science

Appointment: 12 Month, Tenure Track

Responsibilities: The successful candidate will be responsible for teaching in the areas of poultry processing and food chemistry and will be expected to develop an extramurally funded program of research in poultry processing and product chemistry. Candidates are also expected to advise graduate students and contribute to other faculty duties as part of the University academic community. There will be opportunities to affiliate with the Intercollegiate Faculty of Food Science and Technology.

Qualifications: The successful candidate will hold a Ph.D. in poultry science, food science, or related field. Excellent interpersonal and communication skills as well as collegial attitude are imperatives. Prior postdoctoral research and teaching experience are assets.

Location: The position is based in the Department of Poultry Science in the Kleberg Center on the College Station campus of Texas A&M University. Collaborative faculty and laboratories exist in the Colleges of Agriculture and Life Sciences, Engineering, Science, Veterinary Medicine and Biomedical Sciences, the National Center for Electron Beam Research and US Department of Agriculture (USDA). The Bryan-College Station community is an excellent living environment with some of the lowest living costs and is consistently ranked as one of the best places to live in the country.

Facilities: The Department of Poultry Science is the largest such department in the country and has a comprehensive program of undergraduate and graduate teaching, research, and extension. The Kleberg Center is a modern combined facility for teaching and research with classrooms ranging from 15 to 300 seats. Distance (WWW) and other technology-assisted teaching methods (interactive videoconferencing) are also supported with staff and facilities. A well-equipped laboratory and support staff will be made available for this position. The Poultry Science Center is a teaching, research, and extension complex located one mile from the Kleberg Center and provides complete facilities for growing, processing, and further processing poultry meat and eggs. The National Center for Electron Beam Research and USDA laboratory are also nearby, as are several commercial poultry complexes.

Salary: Commensurate with qualifications and experience

Application: Applicants should submit a letter of application, CV, statements of teaching and research interests, and contact information for three references to: Dr. Christopher Bailey, Department of Poultry Science, Texas A&M University, College Station, TX 77843-2472. Review of applications will begin on May 1 and continue until a suitable candidate is identified. Contact Dr. Christopher Bailey at 979-845-7537 or c-bailey@tamu.edu for more information.

Texas A&M University is an Affirmative Action/Equal Opportunity Employer. The University is dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourages applications from women, minorities, individuals with disabilities and covered veterans.
